*How do I enter the @home tutor and other activities on classzone.com?*

You may be directed to a page on classzone.com where it asks you to input your subject, level, and state before it directs you to the correct link. You will want to choose "high school world languages", "Maryland", and then choose "Avancemos 1" in the top left hand corner as the textbook. There is a short video detailing that process in the V-drive where you found this instructions document.
